Mission Statement

Our mission is to empower individuals and families by providing services, resources, and referrals, while celebrating the diversities and strengths unique to each community.

SUCCESS STORY

We have been working with a pregnant single mother of one who had recently completed reunification with her child, age 2 yrs. She began to re-exhibit patterns that had originally caused CPS to intervene. Mentoring and intervention strategies helped the parent create a healthy, nurturing support system and stable environment for herself & children.
