Cynthia Sodari-Executive Director

Mission Statement...

All Yuba County children are health and thriving in safe and nurturing family environments and ready to succeed in their educational experiences.

Vision Statement...

First Five Yuba will strategically support the use of community resources and services to enhance the development and well-being of children 0 through 5 and their families.

Success Story...

The Yuba County School Readiness program has become a resource for families with young children in the target elementary schools of Ella, Cedar Lane, and Linda. The program provided 2.9 million participant hours of literacy, nutrition, physical activity, and child development related parent education. Families enjoyed and repeatedly participated in these workshops offered on the school campuses.

Each Outreach Specialist worked with 10 families using the evidence-based Parents as Teachers (PAT) curriculum. Over the course of the school year 30 families were served with a total of 357 sessions. 93% of PAT participants were frequent at-home readers. 93% reported meeting their parenting goals. 100% agreed on 9 indicators of program quality. Parents could describe changes in their parenting behaviors and their children's behaviors.

SR participants were more likely to have seen a dentist, have health insurance, and read daily at home than other district Kindergarten students.
