Success Story

A family whose father recently lost his job came to the McKinleyville Family Resource Center for assistance. The father said he had never had to ask for help before and that he was very embarrassed, but that his family was completely out of food and there was not any money to buy more. FRC staff walked the family through our Food pantry, where the family selected food from the shelves. The father told the staff, "This is so nice! I was worried before I came. Thank you for being so kind to my family."
