## CONTACTS:

Tehama County Director

Camilla Delsid

West Street FRC Program Manager

Carol Curry

**Northern Valley Catholic Social Service - Tehama** is a diverse community of families and individuals that are working together to create healthy families, safe children, and strong community ties among our members. We believe that we can be a vehicle to affect social change by creating possibilities and choices that are roadmaps for citizens to support their right to thrive.

## Success Story

The goal of the WSFRC is family strengthening through classes and other family focused activities. The Family Academy is one program that evolved in response to the need for parents to learn new skills and to connect with other parents. The WSFRC strives to empower the families that come for services, respecting cultures and socio-economic status, so that families can better understand and set goals for their future and their lives. The WSFRC uses evidenced based tools such as the Family Development Matrix and evidenced based curricula for their nutrition education, life skills, and parent education classes.

Our individual success stories are many, whether it's finding an optometrist to donate his time for an office exam and a pair of glasses to a mother who can't afford it on her own because all this family's income goes toward food, rent and living expenses or an immigrant learning English and needing help filling out their paperwork to be able to stay and work in this country or a young man trying to find a job who needs help with resumes, cover letters and what to say in an interview. Our success stories are working with families, gaining their trust, acknowledging their strengths and working together to find paths that they can follow to affect changes in the lives toward self-sufficiency.
