

Turlock Family Resource Center

Mission Statement

As a public benefit corporation is to meet the need for quality human services for children and families in their communities.

Vision

Our vision is to take collective action to support communities and families as they love and care for children.

Success Story:

A client came in to the center as a walk-in. The client needed help with numerous resources. She was an unemployed single mother who had help from her family but little help from her child's father. This client had a criminal history and was dealing with being told she would lose her eye sight. Client was open and engaged in any services or resources we provided her. She took part in parenting classes, utilized the computer lab for job search and resume building skills, etc. With her Family Liaison's help she took care of her outstanding criminal charges, filed and obtained custody for her daughter and went through several surgeries to repair her eyesight. Sadly, the surgeries weren't successful but client has not let that get her down. She is going through the process of filing for social security and looks for all available opportunities to acquire employment if possible. This client has been with us for a few years and always seeks our help when she needs it.
